
A1

A 1-3-2 set

Get the ball around counter clockwise

When ball gets to player **3** he reverses it and passes back to **2**

He passes to **5** who passes to **4** and around to **1** behind.

Once player **2** passes to player **5**, he cuts down behind the goal to the left side position.

As the pass is made from **4** to **1**, player **3** should be cutting into the crease then down to player **1** looking for a quick shot.

If nothing is there player **1** throws across to player **2** who is now behind.

Player **6** sets a screen for player **5** to cut off of for a feed.

After setting the screen Player **6** should slip and look for a quick shot.

NOTES:
